HKC Security Open Day - Alarm Supplies Northern
Stockport 2nd July
Prestwich 16th July
0830-1600

Protection

Protect your business using a mix of detectors and signalling devices.

The HKC RF Expander facilitates up to 200 wireless zones across multiple buildings without the need for wiring.

Life Safety

A range of wireless detectors designed to keep you and your staff safe at all times. The range includes Smoke, Heat and CO detectors.

Panic buttons (fixed and portable) ensure your staff are safe.

App

The HKC App allows complete control of your alarm system from any location. It can also be used to turn lights or heating on or off and open gates remotely.

- <u>HKC</u> equipment is designed for engineers by engineers.
- <u>Hybrid</u> or <u>Complete wireless</u> panels easy to install and program.
- 70 Wireless Zones out of the box
- Programming is consistent across our range of alarm panels.
- An extensive range of wired and wireless alarm detectors are available to ensure installers can protect properties using perimeter, trap or combined detection.
- Resin sealed electronics – more resilient = less equipment failure
- Wireless and Wired detectors look identical
- Keypad Audio - Voice notification of each zone i.e. 'Alarm Kitchen Side Door'
- 2 Way Radio ensure robust communication between control panel and devices
- No Sleep Time
