

CCTV-Tester/TVI

Dynamic CCTV are proud to present our latest test monitor the CCTVTESER/TVI, a unit that is capable of connecting to and viewing images from the TVI output of any Hikvision or Dynamic TVI camera for setup and positioning. The unit is equipped with an impressive 7" LCD screen and housed in a robust plastic housing, the tester has dual SD & TVI analogue inputs so can be used with TVI and conventional standard definition cameras, it also comes with VGA & HDMI inputs which allows direct connection to your DVR/NVRs monitor output for OSD menu viewing and configuration.

FEATURES:

- **7 Inch LCD screen**
- **Dual TVI & CVBS inputs**
- **VGA & HDMI inputs, allows direct connection & setup of recorders**
- **Robust case with wrist strap**
- **12V 2A ouput for powering cameras**
